## ← Using Zee

Please fully charge your Zee before use. Zee has one button for power and intensities.

**Hold** to turn on and off.

**Press** to cycle intensities.

You can use Zee with bullet-compatible toys and harnesses.

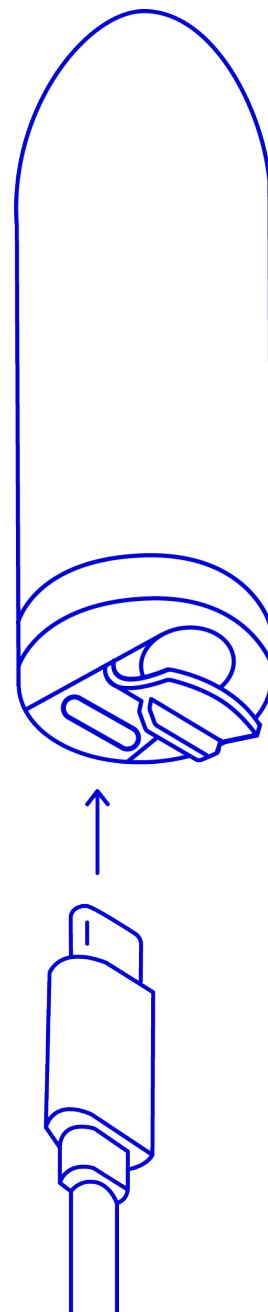

## ← Charging Zee

Battery life (high intensity/steady mode): 1 hour

Charge time: 1 hour

The LED indicator is located under the power button.

Lift the silicone charging port tab, and plug the USB-C end of the charging cable into the charging port. Plug the USB-A end into any 5V USB power supply, such as a computer or a wall adapter that comes with most phones. If Zee's battery has been dead for a long time, it may take a few seconds or minutes for the LED to start blinking.

## Caring for Zee

Zee is splash-proof. Clean your vibe after every use using either a damp cloth or a sex toy cleaner, like Dame's Hand + Vibe Cleaner. If using an alcohol-based cleaner, wait a few seconds for the alcohol to evaporate before using the toy. Dry thoroughly. Store separately from other toys, and away from extreme heat or cold.

---

## Caution

Do not clean with products containing petroleum or acetone. Do not boil, bake, microwave, or run through the dishwasher. Do not submerge in water; Zee is splash-proof, not waterproof.
